

Project Status

1. Problem:-

Providing real rates of all vegetables and fruits to normal local peoples and make easier for government officials to enforce real rates whole over the country

2. Abstract:-

In many places fruits and vegetable sellers are selling these at their own rates And our government official has to do hard work to enforce these rates. Our proposed system will help both the locals and government officials. In our system we provide the real rate list directly from the DC office and the locals can see these rates on one touch.

3. Group meeting:-

Status: done

4. Scope of the project:-

The project initially targets our whole country and will be usable by all the locals and the government officials.

The projects can be generally categorized into three basic modules at the instant, namely:

Admin (Create, delete local admins. Change rates of any region)

Rates (Any person can see the rate list of any region)

Local Admin (Apply for local admin. Can only change rates of their own region)

5. Status of the development of modules:-

Module:-

Admin:-

Sub-module:Login:

completed

Create local admin: completed

Delete local admin: completed

See all local Admins: uncompleted

See local admin requests: completed

Update any region rates: completed

Local admin:-

Sub-modules:Login:

completed

Update rates: completed

Apply for local admin: completed

Rates:-

Sub-modules:-

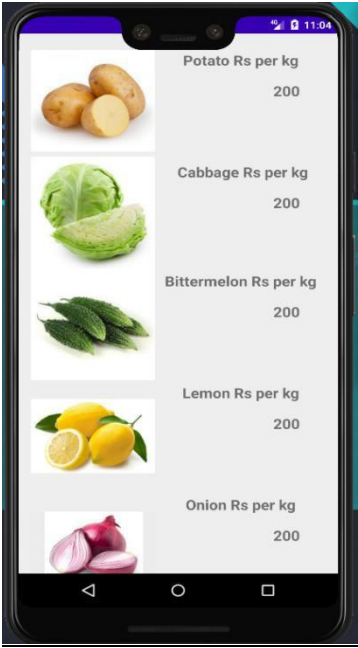

See rates of any region: completed

6. Modules division

member	module
FA17-BCS-012 (Waleed Mustafa)	Rates, Local Admin
FA17-BCS-007 (Ali Haider)	Admin

7. UI Prototypes

Rates

Apply for local admin

This screenshot shows a mobile application interface for applying for local admin. The background is a vibrant image of various vegetables including potatoes, carrots, tomatoes, and bell peppers. Overlaid on this background are several black rectangular input fields with white text labels. The labels are: 'F Name', 'L Name', 'CNIC without -', 'Cell No.', and 'Region'. Below these fields is a black button with the word 'SUBMIT' in white capital letters. The top of the screen shows a status bar with the time '11:04' and various icons. The bottom of the screen features the standard Android navigation bar with back, home, and recent apps buttons.

Update rates

This screenshot displays a mobile application interface for updating rates. The background is a solid light gray. The interface consists of a series of stacked white rectangular boxes. Each box contains the text 'Enter Rate of' followed by the name of a vegetable: 'Potato', 'Cabbage', 'Bitter Melon', 'Lemon', 'Onion', and 'Tomato'. Below each 'Enter Rate of' text is a smaller, lighter gray input field labeled 'New Rate'. At the bottom of the screen, there is a gray button with the text 'UPDATE RATES' in white capital letters. The top status bar shows the time '11:12' and various icons. The bottom navigation bar is visible at the very bottom.
